

# Lactate and Sepsis Training Webinar

- **RECOGNISE**
- **RESUSCITATE**
- **REFER**

Health Pathology

## Presented by Dr Amith Shetty

Dr Amith Shetty is an emergency physician and Director of Westmead Hospital Emergency Medical Research Unit and Director of Hospital in the Home for WSLHD. He is also an honorary research fellow at the Westmead Institute for Medical Research.

As a Senior Lecturer at Sydney Medical School, he is active in emergency department research, fields of critical illness, sepsis and models of care delivery.

Join us to discover more about Amith's health care experience and connect with other users as he provides insight into research, training and guidelines for lactate and sepsis in point of care testing.

- Lactate pathophysiology
- Implications of raised lactate
- When and how to measure lactate
- Threshold and clearance guidelines

**Tuesday  
12th June 2018**

**Session 1  
2:00 - 2:45pm**  
**Session 2  
3:00 - 3:45pm**
